

GOLDEN JUBILEE ANISE HYSSOP

AGASTACHE FOENICULUM 'GOLDEN JUBILEE'

GOLDEN JUBILEE ANISE HYSSOP IS A TRUE RENAISSANCE PLANT. BEAUTIFUL WITH ITS GOLDEN, TRIANGULAR LEAVES AND LAVENDER FLOWERS ON 2' TALL STEMS, IT IS ALSO DELICIOUSLY SCENTED AND EDIBLE. THE YOUNG LEAVES CAN BE EATEN IN FRUIT SALADS TO ADD A DELIGHTFUL LICORICE MINT FLAVOR, WHILE THE MATURE LEAVES CAN BE USED TO FLAVOR COOKED DISHES AND TO MAKE ANISE HYSSOP TEA. IRRESISTIBLE TO BEES AND BUTTERFLIES, THE "CUT AND COME AGAIN" BLOOMS OF MATURE PLANTS EMERGE IN JUNE AND CONTINUE OVER A LONG SEASON.
